Curriculum vitae

Personal data

Name: Vyzaldy A S.

Technical Knowledge and Skills

Node.js, React, CSS, MySQL

Vyzaldy is a passionate software engineer specialized in web development with more than 4 years of experience. As a developer, he has been able to obtain knowledge in many areas regarding software development, such as requirement specification, coding, deployment, delivery, and others.

He loves challenges, and really enjoys learning new things.

Thanks to being a fast learner and enthusiast of teamwork, Vyzaldy is able to adapt pretty well with teams.
