

Curriculum vitae

Personal data

Name: Oleg K.

Technical Knowledge and Skills

React, D3.js, Node.js, CSS

Oleg is an experienced Front End Engineer, working in Web Development for the last 4 years. He is passionate about Javascript and believes that this language has changed the programming world.

He loves using React with Redux as a Front-End Framework and Express as a Back-End.

He keeps on learning every day and tests a lot of new technologies on his home projects. It helps him keep up with rapidly changing Javascript Eco System.

Oleg is an awesome team player, who will always ship well-commented, easily understandable and maintainable high-quality code.
