

# Curriculum vitae

## Personal data

---

**Name:** Roman D.

### Technical Knowledge and Skills

React, HTML, CSS, Node.js

Roman has been building Websites and Web applications for the last 5 years. He has huge expertise in ReactJS, Node.js/Express, Meteor, and D3. UI and UX are his strong sides. It means that your project will run fast and responsive and work perfect on every device, will be mobile-first and pixel-perfect. He keeps enhancing his knowledge every day and uses cutting edge technologies for building modern and responsive interfaces with great performance. Roman is a perfect team player and can work without much oversight, 100% responsible. He always provides clean code and clear communication.
