## Education

---

October 2011 –  
July 2014

Romania  
B.S. in Computer Science profile (in English), Babes-Bolyai  
University

October 2007 –  
July 2011

Romania  
B.S. in Intensive computer science, Alexandru Papiu Ilarian  
College

## Work experience

---

July 2017 -  
Present

Coera, Romania  
Front-end Developer

Stack:

- React, Redux,
- Webpack, Gitlab,
- Kubernetes,
- Node.js,
- Prismic.io,
- Hubspot API.

Responsibilities:

Having earned both confidence in my technical skills and a better understanding of the business environment, I thoroughly enjoyed working on a smaller project at Coera. I discovered that assuming responsibility earns respect and job satisfaction and I learned how to balance sophistication with technical elegance.

July 2014 -  
June 2017

**Accesa, Romania**

Front-end Developer

Stack:

- Git,
- Angular,
- jQuery,
- Google Tag Manager,
- Grunt, Gulp,
- Node,
- Maven,
- JSP,
- Jira, Confluence

Responsibilities:

I learned to appreciate the complexity of scaling big, agile development, and I earned respect for the nuances of decision making and responsibility.

Contrary to my expectation, I discovered that long decision-making processes bring opportunities to take initiative, assume ownership over parts of the project, and I learned how to push together with my colleagues towards company goals.

March 2012 -  
June 2014

**Webfoo, Romania**

Full Stack Developer

Stack:

- CSS, HTML,
- JavaScript,
- jQuery,
- Wordpress,
- PhP, CodeIgniter,
- Photoshop, Ajax.

Responsibilities:

I was lucky to start my career in a company with tremendous focus on design refinement and pixel perfect execution. Their high standards were hard to uphold, but I am grateful for teaching me the importance of being meticulous.
